Ultimate System

A complete communication system with the features of a high-tech device in a lite-tech format at an affordable price. Each piece of this system plays a unique role in meeting communication needs including access. This system accommodates a variety of visual cuing options.

- VoicePal 8K (p. 7)
- Sequencer (p. 5)
- Randomizer (p. 5)
- Bright Box Tactile (p. 11)
- Three Pal Pads (p. 9)
- Taction Pad (p. 9)
- Flexible Switch Set (p. 10)
- SwitchBoard (p. 10)
- Pneumatic Switch (p. 10)
- Two Battery Interrupters (p. 12)
- Three Overlay Pockets (p. 9)
- Reusable Adhesive (p. 9)
- Conductive Foam (p. 9)
- Recipes for Success Remixed (p. 16)

KIT-ULT.....\$968

Save \$108

Interactive Environment Kit

Everything you need to create interactive environments within your classroom using durable, lite technology. Customize your centers, bulletin boards and play areas. Easily incorporated into opening and closing activities, snack, recess and peer interaction.

- VoicePal 8K (p. 7)
- Bright Box Tactile (p. 11)
- Six Pal Pads (p. 9)
- Three Overlay Pockets (p. 9)
- Taction Pad (p. 9)
- HandiBoard (p. 12)
- Idea Guide
- Recipes for Success Remixed (p. 16)

KIT-IE.....\$533

Save \$59

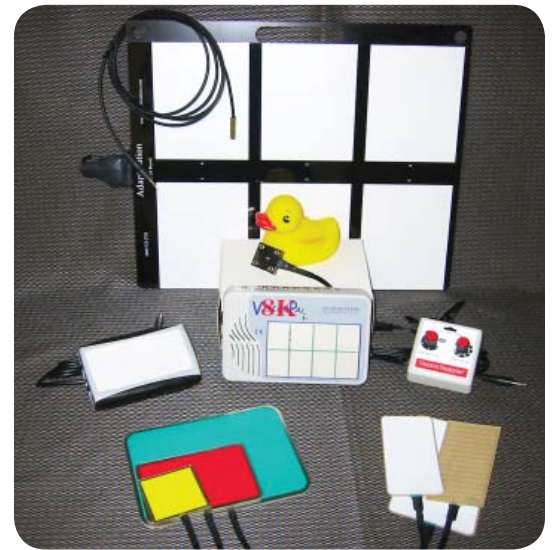

Switch Kit

Access is the key to communication success. This kit contains a wide variety of switches, each with unique features, making it a great combination for individual, classroom or evaluation use. Our switches work great for visual cuing with a variety of visual cues including objects.

- VoicePal 8K (p. 7)
- SwitchBoard (p. 10)
- Three Pal Pads (p. 9)
- Taction Pad (p. 9)
- Flexible Switch Set (p. 10)
- Pneumatic Switch Kit (p. 10)
- Bright Box Tactile (p. 11)
- Dipsy (p. 11)
- TableTapper (p. 11)

KIT-SW.....\$846

Save \$94

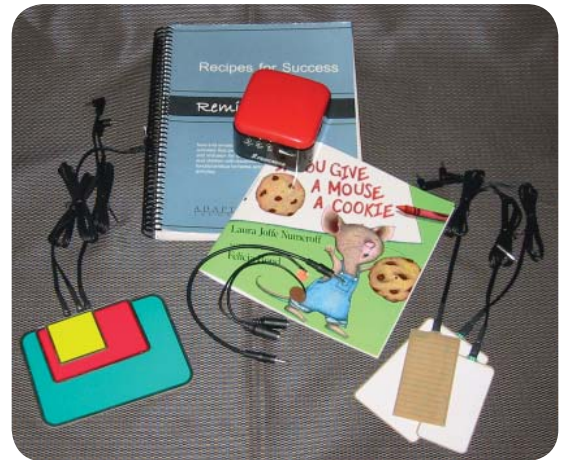

Literacy Kit

Literacy is the key to learning. This kit contains everything needed to adapt a variety of books. The technology included in this kit allows you to create engaging literacy activities and much more. Many ideas are included!

- Sequencer (p. 5)
- Six Overlay Pockets (p. 9)
- Three Pal Pads (p. 9)
- Taction Pad (p. 9)
- Flexible Switch Set (p. 10)
- Two Battery Interrupters (p. 12)
- Male-Male Cable Connector (p. 12)
- Book to be adapted
- Recipes for Success Remixed (p. 16)

KIT-LIT.....\$388

Save \$43

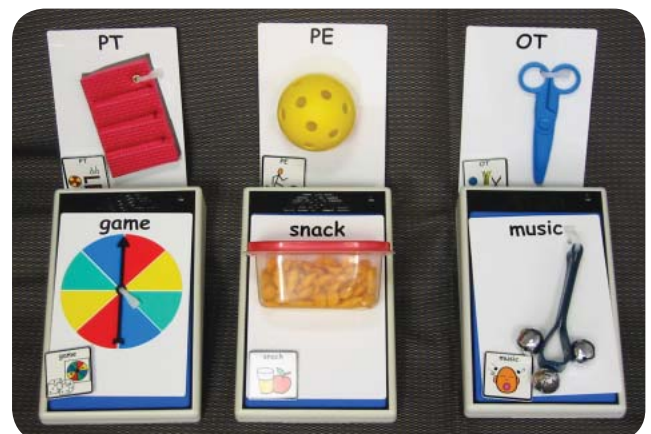

Object Communication Kit

Visual cuing with objects is essential for many individuals. Accommodate multiple students with a variety of needs by using this kit. This combination of objects and simple-to-use technology offers limitless possibilities (i.e. visual schedules, choice making and object-picture transitioning).

- TalkingMyWay Communication System (Standard, p. 6)
- Three Lex Communication Aids (p. 6)

KIT-CS.....\$728

Save \$43

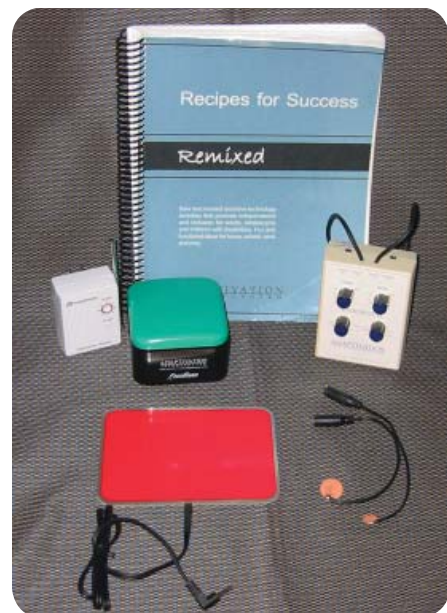

Environmental Control Kit

Give independence to any individual by modifying both AC and battery-operated devices using our simple environmental controls. Remember, environmental controls are also a great enhancement for literacy activities (i.e. use a fan to represent wind).

- FreeHand Starter Kit (p. 13)
- LinkSwitch (p. 12)
- Large Pal Pad (p. 9)
- Two Battery Interrupters (p. 12)
- Recipes for Success Remixed (p. 16)

KIT-ECU.....\$396

Save \$44

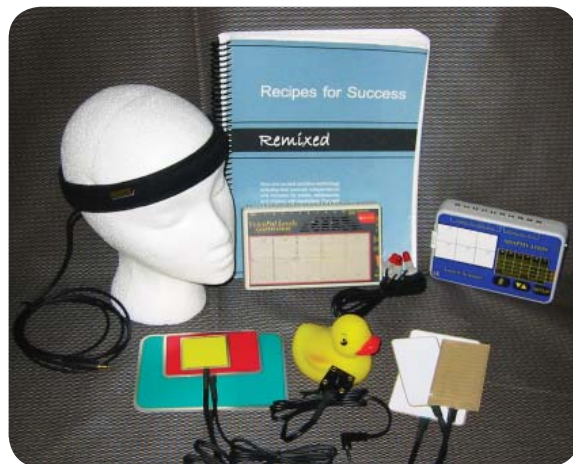

Scanning System

This system provides a variety of scanning options in a simple-to-use and simple-to-change format. Specially designed to accommodate scanners at the object level. An unbelievable array of scanning features including two-button, auditory and cue-word scanning plus many more!

- VoicePal Levels (p. 8)
- Small LEDs (p. 8)
- Switch Scanner (www.adaptivation.com)
- Three Pal Pads (p. 9)
- Dipsy (p. 11)
- Flexible Switch Set (p. 10)
- Taction Pad (p. 9)
- Pneumatic Switch Kit (p. 10)
- Recipes for Success Remixed (p. 16)

KIT-SS.....\$804

Save \$208

Evaluation System

Duplicate the important features of many high-tech devices including scanning. A wide variety of accessibility options are included with this system. This combination of products offers the necessary and easily-adaptable features essential during the evaluation process.

- VoicePal Levels (p. 8)
- Small LEDs (p. 8)
- Three Pal Pads (p. 9)
- Taction Pad (p. 9)
- One Reusable Adhesive (p. 9)
- Bright Box Tactile (p. 11)
- Dipsy (p. 11)
- LinkSwitch (p. 12)
- Two Battery Interrupters (p. 12)
- HandiBoard (p. 12)
- Recipes for Success Remixed (p. 16)

KIT-EVL.....\$978

Save \$109

Chipper

The Chipper is a single-message communication aid with 20 seconds of record time. It utilizes digital recording technology to allow for natural-voice communication. The Chipper has an external switch jack, an external speaker jack and a relay jack for cause-effect. The Chipper has excellent sound quality and a long battery life. (Includes one 9-volt battery)

Dimensions: 3.5" x 3.5" x 2.25"; Weight: 10 oz.

CH-ME (please specify color).....\$114

Sequencer

The Sequencer is a sequential messaging communication aid that allows you to program messages and play them back in succession. The Sequencer has two levels with 45 seconds of record time per level (short play) or 90 seconds of record time per level (long play). Independent levels allow users to easily record activities. The Sequencer has an external switch jack, an external speaker jack and a relay jack for cause-effect. The Sequencer has excellent sound quality and a long battery life. (Includes one 9-volt battery)

Dimensions: 3.5" x 3.5" x 2.25"; Weight: 10 oz.

SE-ME (please specify color).....\$159

Randomizer

Record a series of messages and play them back in random order! The Randomizer can be included in many activities throughout the day. The Randomizer has two levels with 45 seconds of record time per level (short play) or 90 seconds of record time per level (long play). Levels are independent and allow users to easily record activities. The Randomizer has an external switch jack, an external speaker jack and a relay jack for cause-effect. (Includes one 9-volt battery)

Dimensions: 3.5" x 3.5" x 2.25"; Weight: 10 oz.

RAND (please specify color).....\$144

Lex

The Lex is a single-message communication aid with three levels. Natural-voice messages can be recorded (one per level) and stored for single-message playback (20 seconds per message). The Lex has great sound quality and messages can be recorded in any order. A good companion for the TalkingMyWay Object Communication System. (Includes four AAA batteries)

Dimensions: 8.5" x 5.5" x 1.75"; Weight: 15 oz.

LEX.....\$159

TalkingMyWay

Object Communication System

Finally, a system that facilitates communication for students whose understanding is enhanced through objects. The Standard and Teen/Adult sets consist of 30 different objects mounted on durable, plastic cards with matching Picture Communication Symbols. This method encourages transitions from objects to symbols and/or text, as well as meets many other communication needs. For a complete list of card topics, visit www.adaptivation.com.

TMWC (standard).....\$299

Teen/Adult Set

These cards focus on life skills and recreational topics and are a great addition to the standard set. For a complete list of card topics, visit www.adaptivation.com.

TMWC-TA.....\$299

Self-Care Supplemental Pack

This five-card set makes a great object-based communication tool for those learning or directing self-care. Each individual can now have his/her own card set with this supplement pack. Includes bathroom, take medication, wash, comb hair and brush teeth cards.

TMWC-SC.....\$59

Speechables

Teaching Textures

Teaching Textures offer a variety of different fabrics each with a distinctive feel. This system offers 30 pieces consisting of 10 different textures. Each texture has a wristband and two matching fabric schedule cards (2" x 3"). These textures are an easy way to incorporate sensory input into a variety of activities. Teaching Textures are great for individuals who have difficulty transitioning using verbal, picture, symbol and/or object cues. Ideal for individuals who are visually impaired or for those who need tactile cuing to help comprehend language (Autism).

SP-TT.....\$149

VoicePal 8K

Up to eight natural-voice messages (11 seconds per message) can be recorded and played back on the VoicePal 8K by touching the built-in keypad or by using Adaptation's line of unique switches or any commercially available switch. Recording on the VoicePal 8K is easy and messages can be recorded in any order. (Includes four AAA batteries)

Dimensions: 5.75" x 3.75" x 1.25"; Weight: 10 oz.

VP-8K.....\$219

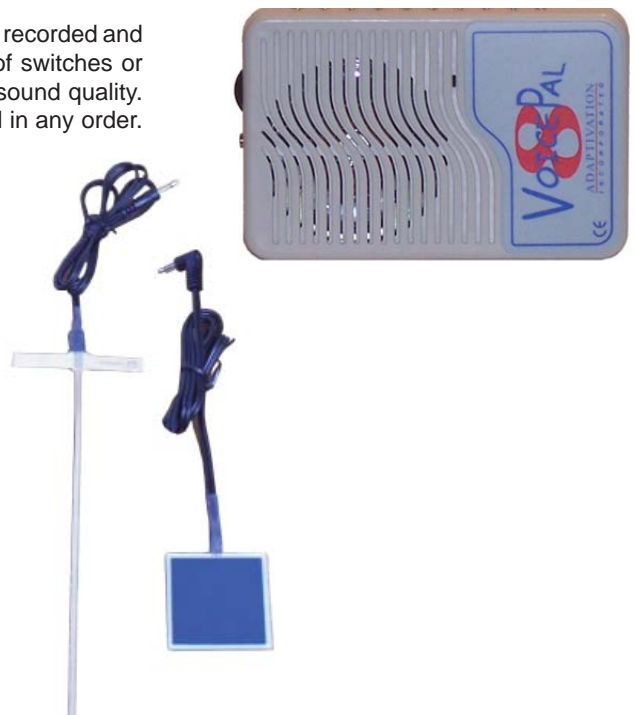

VoicePal 8

Up to eight natural-voice messages (11 seconds per message) can be recorded and played back on the VoicePal 8 by using Adaptation's unique line of switches or any commercially available switch. The VoicePal 8 has exceptional sound quality. Recording on the VoicePal 8 is easy and messages can be recorded in any order. (Includes four AAA batteries, one Taction Pad and one Mini Pal Pad)

Dimensions: 5.75" x 3.75" x 1.25"; Weight: 10 oz.

VP-8.....\$189

Talking Photo Album by Attainment

Use the talking photo album to create a talking slide show, a talking story book or for basic communication. Each of the 24 pages can record up to 10 seconds and can hold a 4" x 6" photo. (two AAA batteries included)

Dimensions: 7.75" x 5.5" x 1"; Weight: 1 lb

TPA.....\$29

VoicePal Levels

The VoicePal Levels is a four-level, customizable, natural-voice communication aid for anyone experiencing communication challenges. The VoicePal Levels is a perfect evaluation tool and can adapt to the growing skills of an individual. It is portable, lightweight and easy to program. Messages can be accessed by direct selection using the on-board keypad, by plugging adaptive switches into the external jacks or by scanning, either visually or auditorily. Slip a symbol or picture overlay into the built-in pouch to customize the keypad (2, 3, 5 or 10 messages). Total record time is 17.5 minutes. For details, download the manual at www.adaptivation.com. (Includes four AA batteries)

Dimensions: 6" x 3.5" x 1.75"; Weight: 1.5 lbs.

VP-M17-X.....\$525
VP-M17-T (includes Taction Pad Set).....\$575

VoicePal Levels Basic Features

- Four Levels
- 17.5 minutes of record time
- Sequential Messaging
- Random Messaging
- 2, 3, 5 or 10 Message Configuration
- 10 External Switch Jacks
- Delayed Activation
- Relay Output for Cause-Effect
- External Speaker Jack
- Scan Speaker Jack

VoicePal Levels Scanning Features

- Positive & Inverse Scanning
- Visual Scanning
- Auditory Scanning
- Full-Message Scanning
- Cue-Word Scanning
- Object Scanning Capability
- Nested Scanning

VoicePal Levels LEDs and Vibrating Motors

LEDs and Vibrating Motors are great tools for beginning scanners. Simply attach to objects, and plug into VoicePal Levels to begin object-based scanning. Comes with three LEDs or three Vibrating Motors. LEDs are available in two sizes.

VP-LED (5/16").....\$30
VP-LED/LG (3/4").....\$45
VP-VBM.....\$35

Keyguards

Keyguards for the VoicePal Levels help the operator to “zero-in” on the desired button. The keyguards help prevent inadvertent activation of the keypad and are suitable for individuals who have limited hand dexterity or use a mouth stick. Available in 2, 3, 5 or 10 message configuration. Can be purchased individually or as a set of four.

KG-2.....\$20
KG-3.....\$20
KG-5.....\$20
KG-10.....\$25
KG-S.....\$80

Carrying Case

Custom designed to protect the VoicePal Levels from bumps, spills and other environmental hazards. The carrying case can be hung over the shoulder or worn around the waist and readily flipped up to provide immediate access to your VoicePal Levels.

CC-VP.....\$49

Pal Pads

Pal Pads are true switches with a 1/8-inch plug and can be used with **ANY** communication aid or battery-operated assistive device that has a standard 1/8-inch jack. Applying only 1.2 ounces of force will activate Adaptation's Pal Pads. They can be activated with the slightest touch, whether it comes from directly above or at a shallow angle. Best of all, these switches are affordable! The rigid and durable Pal Pads are flat membrane switches approximately 1/10" thick.

- PAL-MINI** (2" x 2").....\$35
- PAL-SM** (2.75" x 4").....\$38
- PAL-LG** (4.5" x 6").....\$40

Overlay Pockets

Overlay Pockets are clear, adhesive-backed pockets ideal for placing on top of switches, AAC devices or communication boards. Overlay Pockets also make great Pal Pad holders in adapted activities.

- PT-ME** (3" x 3").....\$3
- PT-SM** (3.75" x 4.5").....\$3
- PT-LG** (4.5" x 6.5").....\$3

Taction Pads™

Taction Pads are clear, adhesive-backed, touch-sensitive plastic patches. When adhered to a surface or object, they act as switches. Simply peel the backing off and stick the Taction Pad on almost any object or surface. When the Taction Pad is plugged into one of Adaptation's assistive devices, the Taction Pad activates the device by touch (moisture) or by the use of conductive foam (sold separately). Taction Pads were designed to operate specifically with Adaptation's line of touch-activated devices, and will not work with other assistive devices or adapted toys unless accompanied by the LinkSwitch (p. 12).

- TPAD-A** (2" x 4").....\$18
- TPAD-A2** (2" x 4") small fingers.....\$18
- TPAD-C** (1/10" x 24").....\$18
- TPAD-D** (3" x 5").....\$18
- TPAD-S** (Set of 4).....\$65

Reusable Adhesive

Adaptation's Reusable Adhesive is great for nonskid switch placement and renewing adhesive on Taction Pads or other adhesive-backed switches. Sold by the unit in 4" x 6" patches.

- RASD**.....\$2

Conductive Foam

Adaptation's Conductive Foam takes the place of skin when an individual cannot directly touch a Taction Pad. Conductive Foam is adhesive-backed and can be cut to shape and applied to any item you choose. Conductive Foam is sold by the unit in 2" x 2" patches.

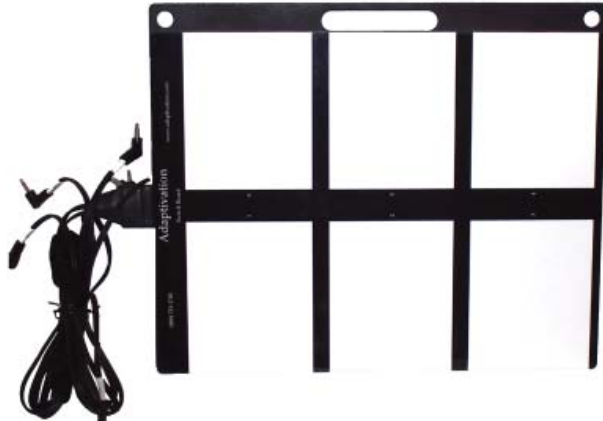

- CFS-2**.....\$2

SwitchBoard

The SwitchBoard has six built-in pressure switches with clear pockets in which you can place your own pictures or symbols, providing a low-cost, lite-tech solution for augmentative communication. Simply insert the SwitchBoard's 1/8-inch plugs into any communication aid that has standard 1/8-inch jacks. When a switch section of the SwitchBoard is touched, the appropriate prerecorded message plays.

Dimensions: 16" x 12" x 5/32"; Weight: 1.5 lbs.

SWBD.....\$145

Flexible Switch

The Flexible Switch combines features of Adaptivation's popular Pal Pads and Taction Pads. The Flexible Switch is similar to the Taction Pad but is a true pressure-activated switch like the Pal Pad. The Flexible Switch can be activated with the slightest touch (less than two ounces), whether it comes from directly above or at a shallow angle. Best of all, the Flexible Switch is affordably priced! The Flexible Switch has a 1/8-inch plug and can be used with **ANY** communication device or battery-operated assistive device that has a standard 1/8-inch jack.

FLX-SET (one 2" x 4", one 3" x 5").....\$49

Pneumatic Switch Kit

Activate this fun and innovative switch with only a puff of air. Show your creative side and find encouraging ways for individuals to activate this switch. The Pneumatic Switch can be easily used with all kinds of squeeze toys, bottles or balls. Allows you to create your own object-based switch. The Pneumatic Switch has a 1/8-inch plug and can be used to activate communication devices, mouse interfaces or switch-adapted toys with standard 1/8-inch jacks. (Includes Pneumatic Switch, squeeze toy and activity sheet)

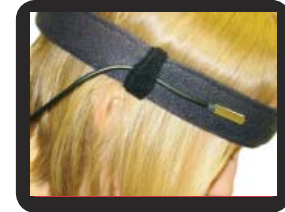

PNSW.....\$49

Dipsy

This tilt-sensitive switch can be attached to the head, arm, finger or any appropriate object. This switch can be used for posture training and other access needs. The Dipsy is activated by a 30-degree tilt (head, finger, etc.) which makes it less prone to false activation. It can also be adjusted for sensitivity by increasing or decreasing the switch's mounting angle. The Dipsy has a 1/8-inch plug and can be used with any communication aid, environmental control or battery-adapted device that has a standard 1/8-inch jack. The Dipsy includes a headband and two finger mounts (the finger mounts can also be used to secure the cord to the headband).

DIP.....\$59

Bright Box & Bright Box Tactile

The Bright Box and Bright Box Tactile both have large-displays for visual cues that are activated when the user presses the top surface of the switch. A 1.75" x 3.75" area of the switch glows a bright bluish, green color. The Bright Box and Bright Box Tactile have 1/8-inch plugs and can be used to activate communication devices, mouse interfaces or switch-adapted toys with standard 1/8-inch jacks. For details, download manual at www.adaptivation.com.

The Bright Box can be used with or without a visual cue. Great for persons with low vision, any nighttime user or to simply attract the user's attention. The Light Switch has three functions: Off, On and Continuous. The Power Switch has three functions: Lo, Hi and Flash. (Includes one 9-volt battery)

Dimensions: 4.25" x 2.5" x 1"; Weight: 6 oz.

The Bright Box Tactile has visual *and* tactile feedback. The visual feedback and tactile feedback (much like that of a cell phone or pager) can be employed independently of each other. The Light Switch has three functions: Off, On and Flash. The Tactile Switch has three functions: Off, On and Pulse. (Includes one 9-volt battery)

Dimensions: 4.25" x 2.5" x 1"; Weight: 6 oz.

Adaptivation's AC adaptor (sold separately) can be used in place of a battery to operate the Bright Box or Bright Box Tactile. This is especially useful when the device is turned on for an extended period of time.

BBX.....\$129

BBXT (Tactile).....\$149

AC9V (adaptor).....\$9

Bright Box Tactile

TableTapper

The TableTapper effectively turns a tabletop into a tap-sensitive switch. By tapping on nearly any surface the TableTapper is in contact with, a battery-operated device can be activated. It is suitable for individuals with limited movement or motor control. The TableTapper has two modes of control (latch and timing) and a variable sensitivity ranging from a light tap to a hard pound (performs best on hard surfaces). The TableTapper has a 1/8-inch plug and can be used to activate communication devices, mouse interfaces or switch-adapted toys with standard 1/8-inch jacks. (Includes one 9-volt battery)

Dimensions: 2.5" x 2.5" x 1"; Weight: 6 oz.

TTPR.....\$139

LinkSwitch

The LinkSwitch is an interface device that enables individuals to activate battery-operated devices using any adaptive switch with a 1/8-inch plug. Simply plug a switch such as the Taction Pad, Pal Pad into the LinkSwitch. Then touch the switch to activate adapted toys, keyboard interfaces, sensory stimulus devices or virtually any battery-operated device. All LinkSwitches come with dual-channel modes and can add latching and timing capabilities to battery-operated devices. (Includes one 9-volt battery)
Dimension: 4.25" x 3.25" x 1.5"; Weight: 12 oz.

DLT-202.....\$115

Battery Interrupters

Adaptation's Battery Interrupter allows you to modify battery-operated devices for switch input. Simply place the Battery Interrupter between the battery and its connection point in the battery compartment. Make a notch in the compartment lid allowing the cord to pass through when it is closed and then secure the lid. Place the battery-operated device in its ON position. Plug your switch into the input jack of the Battery Interrupter, and you're set.

BI-050 (AA & AAA).....\$11

BI-075 (C & D).....\$11

HandiBoard

The HandiBoard works great for organizing cords and devices! Just attach items to the top of the HandiBoard and pull cords to the back.

Dimensions: 15.5" x 11.75" x .25"

HBD.....\$39

Female-Male Cable Connector

A Female-Male Cable Connector can be used as an extension cord for switches such as Pal Pads.

CC-FM (30").....\$7

Dual Lock

Dual Lock is five times stronger than conventional hook and loop fasteners and adheres instantly to many surfaces (1" wide).

DLK-2.....\$.50/inch

Minimum order 10"

VELCRO® brand fasteners

Industrial-Strength VELCRO® brand fasteners work great on difficult surfaces (2" wide).

VELCRO.....\$.35/inch

Minimum order 10"

Male-Male Cable Connector

CC-6 (30").....\$6

CC-2 (12").....\$5

FreeHand

The FreeHand is an environmental control device that allows nearly any AC appliance to be activated with wireless convenience when used in conjunction with an X-10 transceiver module. Because the FreeHand utilizes radio frequencies, activation can take place from across the room or down the hall. Cordless operation eliminates barriers and promotes safety. Range 75 feet. (Includes one 9-volt battery)

Dimensions: 3.5" x 3.5" x 2.25"; Weight: 8 oz.

FH-SK (includes transceiver).....\$145

Wireless Pal Pad

The wireless design of the Wireless Pal Pad allows you to control an AC appliance when used in conjunction with an X-10 transceiver module (included). The Wireless Pal Pad's slim, lightweight design makes mounting a breeze. Because the Wireless Pal Pad utilizes radio frequencies, activation can take place without direct line-of-sight. Cordless operation eliminates barriers and promotes safety. Range 25 feet.

Dimensions: 4" x 4" x 2.25"; Weight: 2 oz.

WPP-SK (includes transceiver).....\$125

X-10 Modules

3-pin appliance module (grounded) 15 amps, 500 watts max

FSXR-2.....\$30

Wall switch module replaces standard wall switch, 500 watts max (not for florescent lights)

FSXR-3.....\$30

Remote chime module with 6-note doorbell-like chime (use like a call button or pager)

FSXR-4.....\$45

Super socket outlet module replaces standard AC (main) wall outlet. Grounded, 15 amps, 1800 watts max

FSXR-5.....\$35

Universal interface module allows activation of battery devices. 5 amps @ 24 volts DC (also has beeping capability)

FSXR-6.....\$35

Transceiver module, master control module required for use of other modules (included with FreeHand, Wireless Pal Pad and FressSwitch Max)

FSXR-9.....\$30

FreeSwitch Max

The FreeSwitch Max allows multiple appliances such as lamps and fans to be activated with wireless convenience when used in conjunction with an X-10 transceiver module (included). The FreeSwitch Max activates AC appliances through direct selection via the keypad, external switches or scanning, either visual and/or auditory. Up to eight appliances can be chosen with the visual/auditory scanning feature of the FreeSwitch Max. The FreeSwitch Max allows eight messages (2.5 seconds each) to be utilized in its auditory scanning mode. For details, download manual at www.adaptivation.com. (Includes one 9-volt battery and one X-10 transceiver)

Dimensions: 6.25" x 3.75" x 1.25"; Weight: 10 oz.

FSM-100.....\$299

Personal Pager

The Personal Pager emits a chime or vibration alert when the transmitter is pressed. The Personal Pager is battery operated, completely wireless and very compact. Simply slide a switch to choose chime or vibration alert modes. Adaptation offers a switch input version, which has been adapted to allow access by most available switches, as well as the standard version. This pager has a range of 75 feet. *The PP-CH/VBS is not compatible with Adaptivation's Taction Pads. Multiple units, when used in proximity, may cause interference with each other. Not approved to be used as a nurse-call.* (Two AA batteries included with PP-CH/VBS)

PP-CH/VBS (Switch Input).....\$84
 PP-CH/VBS-XM (Standard).....\$45

Sensory Software

(Please note that software is not returnable. Check our website for additional titles)

5-User Site Licenses available for each Sensory Software title for only \$120!

Alphabet Paint

Alphabet Paint has 104 quality pictures and over 400 related sounds. It provides students with visual and aural association of the letter and the sounds. *Switch, touch screen, mouse or keypad input.*

WIN 95, 2000, XP & Vista

SS-AP.....\$55

Kaleidoscope 2

Kaleidoscope is a simple, multi-purpose painting program. At its most basic level, a simple mouse click will add color to pictures. At a more advanced level, users can stamp pictures, paint or even create symmetrical kaleidoscope images. Kaleidoscope also has the ability to include sounds associated with the "painting option". *Touch screen, mouse or keyboard input.*

WIN 95, 2000, XP & Vista

SS-KP2.....\$55

Build Some More

Build Some More has been developed to support early switch users. It has a wide variety of activities for switch users from simple cause-and-effect activities, to requiring the user to press a switch several times to build up a picture. *Switch, touch screen, mouse, joystick or Intellikeys keyboard input.*

WIN 95, 2000, XP & Vista

SS-BM.....\$55

My Noisy Coloring Book

My Noisy Coloring Book provides a range of coloring activities. Each color can be assigned a sound to add interest and excitement. *One or two-switch, touch screen or mouse input.*

WIN 95, 2000, XP & Vista

SS-NC.....\$55

Build Some Patterns

Build Some Patterns has been developed to support early switch users. It has several activities for switch users that cause patterns to be displayed and animated. *Switch, touch screen, mouse or keyboard input.*

WIN 95, 2000, XP & Vista

SS-BP.....\$55

Splatter

Splatter is a fun program that uses delightful color patterns and sounds in activities that develop cause-and-effect and color recognition. *Switch, touch screen, mouse or keyboard input.*

WIN 95, 2000, XP & Vista

SS-SPL.....\$55

Inclusive Technology

(Please note that software is not returnable. Prices subject to change.)

Other titles available upon request. Call for pricing!

SwitchIt! Maker 2

SwitchIt! Maker 2 is very easy to use! Make new switch activities in minutes. You can create simple cause-and-effect activities using your own images and sounds. The program comes with a number of interesting example files, but provides an easy way to make use of the digital camera or your own clipart to tailor activities for your students.

WIN 2000, XP & Vista and Mac OS X

IN-SM.....\$128
IN-SM5 (5-user license).....\$325

Chooselt! Maker 2

Moving on from cause-and-effect, learners need to begin to make choices. For switch users, using scanning techniques is a major hurdle. With this simple editing program, you can create many appropriate and interesting activities. Add your own pictures, words and sounds to make activities or use the built-in photographs, drawings and speech files. *Switches, mouse and touch screen.*

IN-CI5 (5-user license).....\$325

which is different?

Switch Skills 1

This collection of easy switch-timing activities is fun for all ages and provides the motivation needed to help students who understand cause-and-effect develop more disciplined switch use. The activities also encourage speaking and listening to help develop concentration skills. There are lots of sounds, music and graphics. The program keeps statistics and allows you to make games more difficult.

WIN 2000, XP & Vista and Mac OS X

IN-SS.....\$98
IN-SS5 (5-user license).....\$275

Switch Skills for Two: Set 1

This CD contains 16 activities in carefully graded sections. It provides an accessible environment to encourage the learner to move beyond the stage of cause and effect. Thinking, experimenting, observing and interacting are encouraged by providing simple activities that delight and engage.

WIN 2000, XP & Vista and Mac OS X

IN-SS2.....\$98
IN-SS25 (5-user license).....\$275

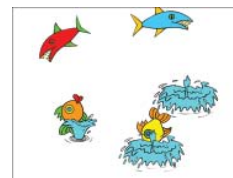

Big Bang

Big Bang is a superb collection of cause-and-effect activities for students with profound and multiple learning difficulties. Big Bang has eye catching images, stimulating movement and crazy sound effects to match! It grabs the user's attention and encourages interaction with the computer. *Switch, mouse, IntelliKeys, keyboard or touch screen.*

Recipes for Success Remixed

Recipes for Success Remixed is Adaptation's latest resource guide that includes new and revised assistive technology activities that promote independence and inclusion for adults, adolescents and children with disabilities. We took the best recipes from *Recipes for Success Volumes 1, 2 and 3* and updated them with the most current assistive technology available. We also added new ideas and activities throughout the book. Each recipe gives a detailed list of materials needed, step-by-step instructions and numerous activity and equipment variations to help you adapt an activity to meet the needs of your client. This is a great book for individuals looking for literacy, phonemic awareness, vocational and/or daily living ideas. These activities are fun and functional and can be used for home, school, work and play. See www.adaptation.com to download sample recipes. (Spiral binding, 250+ pages)

Including Students with Severe and Multiple Disabilities in Typical Classrooms, Third Edition

By June E. Downing, Ph.D., with invited contributors

This book gives teachers all the latest research-based, practical strategies for fully including students with sensory impairments and cognitive and physical disabilities. A helpful Q & A chapter gives teachers straightforward advice on addressing their most common challenges. This trusted guide and widely used textbook will help teachers maintain high expectations for students with severe and multiple disabilities and create successful inclusive classrooms where every child learns. (352 pages)

Assistive Technology Solutions in Minutes

By Therese Willkomm, Ph.D.

A "Must Have" book for everyone and anyone who wants to learn low cost assistive technology (A.T.) solutions that can be constructed in five minutes or less. This book is filled with over 600 color photographs of innovative fabrication techniques for constructing A.T. solutions for home, school, work and play. Dr. Willkomm shares her experience with over 50 basic tools and materials used in quick solution development and rapid prototyping. The focus of this publication is to make a difference today! (133 pages)

Teaching Communication Skills to Students with Severe Disabilities, Second Edition

By June E. Downing, Ph.D., with invited contributors

Educators need to know how to facilitate good communication with all students, whatever their disability. In this easy-to-read text, teachers will find the strategies for assessing communication skills, assist students with peer interaction in typical settings and across the age span, and acquire intervention techniques to promote alternative forms of communication. Designed specifically for the inclusive classroom, these ideas work because they come from those who know: teachers, speech-language pathologists, parents, teaching assistants and students. This second edition offers new material on the connection between literacy skills and general communication skills, students with disabilities working among students without disabilities, communication in strengthening social relationships and communicative rights of individuals with severe disabilities. (252 pages)

Autism Spectrum Disorders and AAC

Edited by Pat Mirenda, Ph.D. & Teresa Iacono, Ph.D.

For children, adolescents and adults with Autism, augmentative and alternative communication (AAC) can have a tremendous, positive impact on communication, social skills and behavior. Now there's a comprehensive, up-to-date research volume that shows professionals what today's most effective AAC methods are -- and why they're a perfect fit with a variety of learning approaches that work for people with Autism. Readers will get clarification of the common characteristics of effective AAC interventions and insight into the future research required to make AAC technologies more meaningful and motivating. (484 pages)

AAAC.....\$50

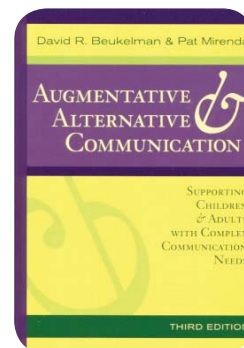

Augmentative and Alternative Communication Supporting Children and Adults with Complex Needs, Third Edition

By David R. Beukelman, Ph.D., & Pat Mirenda, Ph.D.

This definitive textbook incorporates critical information on implementing augmentative and alternative communication (AAC). It explains principles and procedures of AAC assessment and offers intervention techniques that are appropriate throughout the life span of children and adults with congenital or acquired communication disorders. This third edition offers new and expanded information on adults with degenerative language or cognition disorders, adults with acquired disabilities, capability assessment, terminology that reflects the recommendations of the International Society of Augmentative and Alternative Communication (ISAAC) and examples that reflect the most recent AAC devices and interventions. (634 pages)

AACB.....\$75

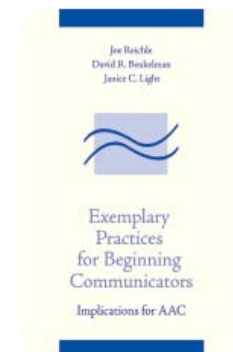

Exemplary Practices for Beginning Communicators

By Joe Reichle, Ph.D., David R. Beukelman, Ph.D., and Janice Light, Ph.D.

This comprehensive text shows professionals how AAC can establish beginning communication skills among individuals who experience significant communication challenges. Readers will get thoughtful explorations of factors that influence beginning AAC communicators, a detailed overview of interventions that help individuals develop crucial communicative behaviors, guidelines for selecting an AAC system that best matches an individual's needs, and examples that bring to life the issues addressed in each chapter. (491 pages)

EPBC.....\$45

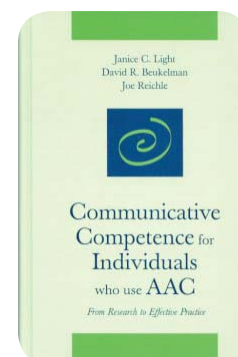

Communicative Competence for Individuals Who Use AAC: From Research to Effective Practice

Edited by Janice Light, Ph.D., David R. Beukelman, Ph.D., and Joe Reichle, Ph.D.

Relevant for children and adults at all stages of communication development, this in-depth resource is required reading for everyone working with individuals who use AAC. The book presents current research and theory and guides readers through four skill areas important to the development of communicative competence: linguistic competence, operational competence, social competence and strategic competence. Two concluding chapters reveal how to improve the communicative competence of individuals who use AAC through effective intervention strategies and how to ensure that the strategies are working through outcome measurement. (520 pages)

Magic Arm

Adaptivation's Magic Arm is a durable mounting solution for all of your device-mounting challenges. The Magic Arm can support up to five pounds and extend to 20 inches. The Magic Arm has an easy-to-adjust tension knob that locks all joints.

- Three adjustable joints for maximum angle adjustment
- Extendable to 20 inches
- Durable construction allows support of up to five pounds
- Includes Super Clamp and Large Triangle Plate**

MA-K.....\$249

Flexible Arm

The heavy-duty Flexible Arm can hold up to one pound and is 20 inches long. It is great for holding a switch in an awkward position. Works well for evaluations when switches need to be moved to different positions quickly. **Includes Super Clamp and one small mounting plate (STMP, SCMP or SRMP).**

FA-HD.....\$142

E-Mount

Adaptivation's Switch Mounting System is perfect for mounting switches or lightweight communication aids. The E-Mount can support up to two pounds and extends up to 20 inches.

- Three adjustable pivot points allow for easy placement in any position
- Lightweight construction makes it ideal for single-switch placement
- Includes Mini clamp (standard) or Clip Clamp (shown below) and one small mounting plate (STMP, SCMP or SRMP)**

Maxess Switch Mounts

Some students have greater motor control if the switch is placed at an angle. These double-sided switch mounts give alternative mounting surfaces of 55 degrees and 85 degrees. Used with the Maxess Switch Tray, the mounts offer a variety of positioning options. Hook-and-loop fastener fixing pack included for one switch.

Pictured above are the large Maxess Switch Tray and the small, medium, and large Maxess Switch Mounts.

Sensitrac Desk Mount (4" arm)

The preferred system for mounting Adaptation's SwitchBoard or other large or heavy equipment (weighing up to 15 pounds) to a desk-top surface. Includes one Slider Plate and fasteners.

ST-DM (Desk Mount).....\$425

Sensitrac Desk-Tray Arm (4" arm)

This mounting system is well suited to hold Adaptation's SwitchBoard or other large or heavy equipment (weighing up to 15 pounds). Includes Super Clamp, one Slider Plate and fasteners.

ST-DT (Desk-Tray Arm).....\$389

Sensitrac Adapter (for use with the Magic Arm. p.22)

This special attachment screws into the opening at the end of the Magic Arm allowing the Magic Arm to accept the Sensitrac Slider Plates. Includes one Slider Plate covered in Ultra Mate Velcro and two fasteners for securing devices.

ST-MAA (Adapter).....\$89

Sensitrac Adjustable Arm

This unique arm allows a device to be positioned in numerous angles. The Flat Pad base secures to any flat surface using suction thus preventing uncontrolled movement of devices. Includes Angle Arm with Flat Pad Base, one Slider Plate, and two fasteners for securing devices.

ST-AA (Angle Arm).....\$119

Sensitrac Flat Pad

The Flat Pad base (6" x 6") secures to any flat surface using suction thus preventing uncontrolled movement of devices. Devices can be mounted by using hook and loop fasteners.

ST-FP (Flat Pad).....\$50

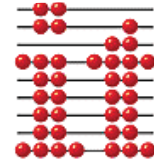

Sensitrac Slider Plates

Slider Plates fit any of the sensitrac mounting solutions. Simply adhere the device to the plate with the included fastener and slide it into the Sensitrac mount.

ST-SP (Slider 5-pks).....\$30

Create-a-Board Book Set

Personalize these blank board books for long term use...great for social stories! Books have six board pages (total of 10 sides). One small (5" x 5"), one regular (8.375" x 6") and one large (11" x 8") included in a set.

AR-BB.....**\$21**

Create-a-Book (Fabric)

This book is made of eight (9.5" x 8.5") hook-and-loop receptive surfaces. Use "hook" fasteners on words and pictures to create story after story. Equipped with hard cover for easy use. Extra Fabric Pages Inserts available (adds four 8.5" x 9.5" surfaces to book and will not fit more than one additional insert per book).

AR-FB (Create-a-Book Fabric).....**\$40**

AR-FI (Extra Fabric Pages Insert).....**\$15**

Portable Object Communication Unit

Equipped with an adjustable handle and hook-and-loop closures. Stiffened, wide binding allows for accommodation of objects up to 6" in height. Measures 30" x 15.5" when open and 12" x 15.5" x 6" when closed. VELTEX Brand Fabric surface inside and waterproof nylon material outside (filled with plastic board for stiffened surface). Object cards not included!

AR-PU.....**\$58**

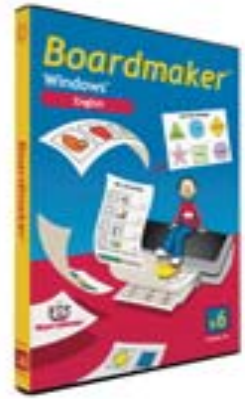

DynaVox Mayer-Johnson

(Some territories excluded for resell per DynaVox Mayer-Johnson. Prices subject to change.)

Boardmaker®

Boardmaker is the premier software among educators for creating printed symbol-based communication and educational materials. A drawing program combined with a graphics database, Boardmaker features more than 4,500 Picture Communication Symbols (PCS) in 44 languages, in both color and black-and-white. It also features over 150 templates to get you started, and helps you create your own symbol-based materials to reinforce your classroom activities like: visual schedules, behavior supports, symbol-adapted books, communication boards, worksheets and activities, song and storyboards, articulation flashcards and fluency cards.

Like all products in the Boardmaker Software Family, Boardmaker has been developed and refined to reduce the time you spend adapting curriculum to meet the individual needs of unique learners.

Talk To Me Technologies

Pogo Boards

Pogo Boards is a powerful, flexible and easy-to-use tool designed to help users create and share custom, symbol-based communication boards and learning materials. Pogo Boards is the world's first all-in-one solution of its kind. It's a revolutionary, user-friendly, web-based application that's easy for both families and support staff to learn and use. Use it anywhere, anytime with no need to keep track of discs!

Pogo Boards has also recently added voice output in 42 high quality, text-to-speech voices ... and the application is now available in multiple languages, as well!

Creating and sharing is a breeze with Pogo Boards. Users have access to thousands of communication boards and symbol-based materials within the different Global Community folders. With Pogo Boards, you can also quickly and easily generate, print and email custom:

- Communication boards
- Symbol and print-based learning materials
- Communication books
- Therapy activities
- Flashcards
- And more!

There are two types of subscriptions for Pogo Boards. ALL of the features are available with the Advanced Subscription (rates listed below), while the Basic Account is free and has limited functionality.
